16 Monitor Mixes

13 Musician wireless in ear mixes

1 Drummer Wedge mix

1 wireless in ear mix for FOH Comm

1 wireless in ear mix for Monitor Comm

SOUND SYSTEM:

We will need a balanced 4 way sound system that is appropriate for the sized venue we are performing in. This includes Sub boxes and 3-way full range boxes or line arrays. Obviously, this will vary from location to location.

See attached Input List for all required MICROPHONES, Direct Boxes, Stands, and Monitoring Requirements.

Obviously cabling for all of these items will be required.

PERSONNEL:

Gear Rental Company needs to provide support personnel to place Consoles, Sound System, and Backline etc. in appropriate locations.

We will supply our own Guitar Tech.
